When children who have set days in place require additional days, the daily rate will remain the same as the set day fees.

Regular daily rates apply to the same fixed days each week of the year. Calendar daily fees apply to those schedules that require flexibility from week to week.

Monthly invoices for JK/SK and school-age children include **only their regularly scheduled days** that they are to attend the Preschool. **The monthly invoices do not include PA Days**, those are invoiced separately. There is a list, in the hallway going downstairs, for parents of JK/SK & School-age children to sign their children up for PA Days and School closures (*i.e.: Christmas closure and March Break*) throughout the school year. It is from these lists that children are added to the attendance and that parents are invoiced for the additional days. Children must be signed up prior to this date in order to ensure their spot.
